

HANDCASE

HEART USER MANUAL

This manual is intuitive as our software, just watch the images to understand how to use the best and most efficient way. The screens follow the logical order of the presentation of the tools in the interface of each software.

Descriptive

Suite of 12 tools integrated into a single interface to help the doctor cardiologist to record, monitor and organize the information from their patients. It offers tools to record and organize registration of patients, medical description, physical examinations, laboratory exams, the imaging exams, diagnosis, progress, medications and other treatments. It also offers tool for reports, agenda and diary. In English.

1.0 - PALM OS 3.5 or superior (ram 131 KB)

Install

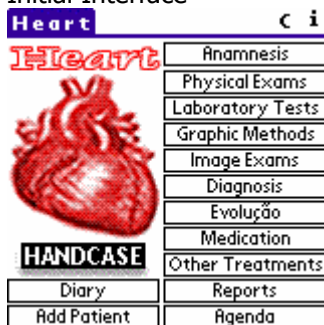

If you received the program by e-mail, just unpacking the zip on the desktop and give a double click the file **heart.prc**, the tool installation of your Palm will open showing the file being synchronized. Synchronize and ready, or at the next synchronization will be installed.

You recognize the icon on the side.

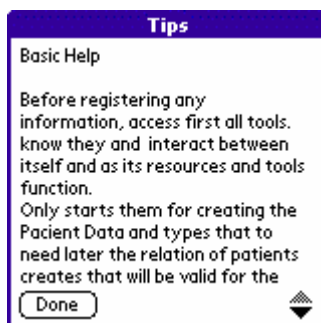

Tools

Initial Interface

Here select the tool you wish to use.

Basic Help, you access by icon "i" on home screen.

Edit	Help	Flash
Undo		Anamnesis
Cut		Physical Exams
