

# HANDCASE

## H A N D C A R C H E C K U P U S E R M A N U A L

This manual is intuitive as our softwares, it is enough to observe the images to understand as using in the best and more efficient way.

The screens follow the logical order of the presentation of the tools in the interface of each software.

### Descriptive

Suite of 12 tools. It is quick and easy administration and monitoring of concession shops, repair centers or individuals in general to automotive (cars, trucks, buses or utilities etc). For the largest companies serves as a complement mobile and updated. Structured in Description, Repair, Fuel, Tires, Inspection, Accident, Insurance, Mileage, Lubricants, Reports, Agenda and Budget.

**1.0 - PALM 3.5 or superior (ram 140 KB)**

### Install

If you received the program for e-mail, descompactar is enough the zip in the work area and to give a double click in the file **HCarCheckUp.prc** the tool of installation of your Palm will open presenting the file to be synchronized, synchronize and ready or in the next sincronização he will be installed.

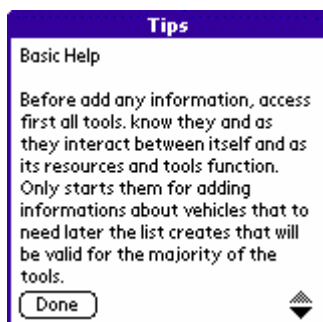

You will recognize it for the icon to the side.

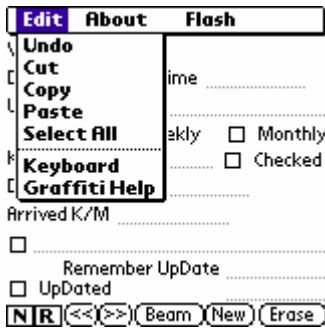

### Initial interface

Here you choose the tool that wants to use.

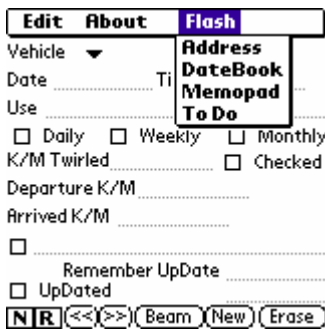

Here access help by icon "i" on top of the initial screen.

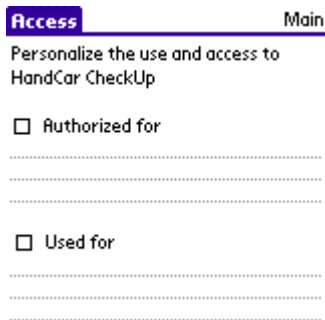

Standard menu, is enough to copy of the other tools and necklace in the HandCarCheckUp information and vice versa.

Obs.: You can copy of Memopad of your Palm all the information and to place in HandCarCheckUp as well as to copy of him and to glue in Memopad to use starting from Palm Desktop.

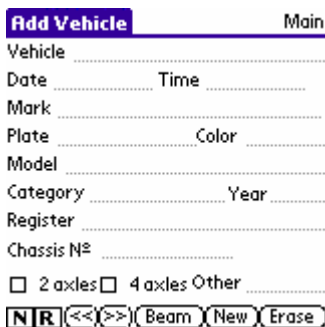

In the tools the button beam It facilitates the transfer for other Palm that has installed HandCarCheckUp of the information of vehicles.

Here as in the screens of the other tools you choose in the menu and it accesses the tools standard of Palm being able to the you close them to return direct for HandCarCheckUp.

When clicking in the button **A** in the initial screen you can personalize your copy of HandCarCheckUp with your name or other information that you judges useful as Workshop, concessionary, shop car etc.

Here you organize the data about each vehicle.
