## MANUAL DO USUÁRIO DO

### PEDIATRIST

This manual is intuitive as our softwares, it is enough to observe the images to understand as using in the best and more efficient way. The screens follow the logical order of the presentation of the tools in the interface of each software.

#### Descriptive

Software for Pediatricians, with 14 tools: Development, Accidents, Notes, Medication, Treatments, Procedures, Plan of Health, Vaccines, Tests (it includes the tests of the foot and Apgar), Cares, Diseases, Feeding, Activities and Special Circumstances. It still offers the Diary. In English.

#### **1.0 - For all models with Palm System (ram 128 KB)**

#### Install

If you received the program for e-mail, unzip is enough the zip in the desktop and to give a double click in the file **Pediatrist.prc** the tool of installation of your Palm will open presenting the file to be synchronized, synchronize and ready or in the next synchronization he will be installed.

You will recognize it for the icon to the side.

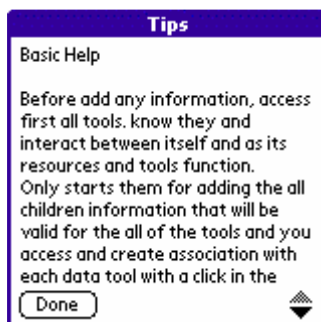

#### Initial Interface

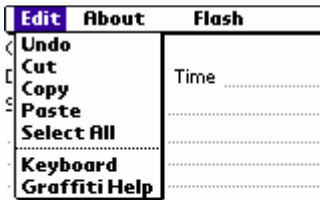

Here you choose the tool that wants to use.

**Note:** You can copy of Palm Memopad of the whole information and to put in the PEDIATRIST as well as to copy of him and necklace in Memopad to use starting from Palm Desktop.

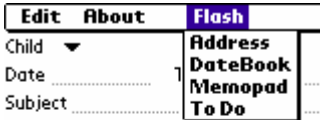

In the tools the button **beam**. It facilitates the transfer for other Palm that has the installed PEDIATRIST of the patients' information among friends.

This is the screen of help, that you access for the icon "i" in the top of the initial screen.

Here as in the screens of the other tools, you choose in the menu, the action option that to judge necessary.

Here as in the screens of the other tools, you choose in the menu and it accesses the tools standard of Palm, being able to the you close them to return direct for the PEDIATRIST.

**Add Child** Main

Add all the Children for associate with data of the all tools.
